SEEN, HEARD AND TOLD

(By Andrew Whitaker)

Brother "preacher" Hamilton came into the office Monday morning and said a prayer, blessing his painting job on the front of the GCW. He went back out and began work. After a few minutes he was removing an old awning frame that fell and came near knocking the preacher off his ladder.

Most everybody is talking about the State-Ole Miss game this Saturday. Right now (thru their long series) they are tied, each having 24 wins. Three games have ended in ties. You pick the winner!

It looks like that by next year, the farmers will have no market for their cotton!

The old photograph, appearing to the right, was brought in by Bet Horn. He didn't know all of the people in this picture. If YOU know all of them, come in and bring their name and we will re-publish it with a complete list of names. Bet said he thought the picture was made about 1903.

Our Green Street neighbor and good friend, Earl Horton, is reported as doing a little better at Grenada Hospital this (Wednesday) morning, according to his brother, Ray Horton. We are all pulling for you, Earl.

People are STILL catching limits of crappie at the Grenada spillway. The supply must be unlimited!

Last week we got out a day late, this week, to make up for it, we are getting out a day early - on Wednesday.

Congratulations to Richard Forbes, son of Mr. and Mrs. L. T. Forbes, who is now a plebe at West Point.

We are all pulling for William Winter for the next Speaker of the House.

Anyone interested in the Gore Springs Methodist Church Cemetery, may contact Mrs. Billy James. Mrs. James was recently elected secretary-treasurer of this church. She is on Route 4, Grenada.

Sorry to hear of the death in Chica of Andrew Pressgrove. He was a brother of Rice and John.

Don't miss "The Phenix City Story" over at Grenada Theatre over the weekend.

It looks like duck hunting down in the Oxberry bottom is a thing of the past. It has only been a few years since that was about the best duck hunting territory in Mississippi.

Brother Engle of the Episcopal Church had a special Holy Communion service at 4 a. m. Thursday morning, so that any member who had planned a hunting or fishing trip, could come to church and still have plenty of time to get to the woods or to the lake.

We heard Tuesday night that Hiram West has killed a deer down about the Double Cypress Club.

If Dizzy Billy Horton doesn't slow down he is either going to have a stroke or make someone else have one!

See from Al Gully's Jitney-Jungle Recipe, that Dr. Bob Clanton must spend part of his time in the kitchen.

It won't be long now until we will start our annual Santa Claus letters.

If you will need some Christmas cards with your name printed on them, we can fix you up pretty cheap.

Don't wait until about a week before Christmas to order them.

Getting out a day earlier than usual, some items sent in to us might not get in the paper this week.

It would do a lot of us parents good to read what Mrs. Gerry Parker wrote in Fed's Town Talk, elsewhere in this issue.

Our subscribers, Mr. and Mrs. Walter Cooley in Greenwood, have moved to Albuquerfue, N. M. to reside. They visited relatives in Grenada County just before leaving. Mr. Cooley is a nephew of Mr. Matt Cooley.

After seeing some of the more recent pictures that we have been using of Grenada High School, Jim Horn brought the above picture in. Jim thinks it was made in 1903, but he isn't sure. He also could not recall the names of all those pictured above, but the ones he did identify were:

Front row, left to right:

Jim Horn, next to him is Robert Long, third boy unidentified.

Second row, l. to r.: Tom Pearson, Herbert Kettle, Annie McElwrath Graves, unidentified, and Savannah Allen.

Third row, l. to r.: Powell Goza, Raphael Semmes, Roland Doty, and 2 unidentified boys.

Top row, l. to r., Miss Hill, Meade Parrell, unidentified, Rebecca Terrell Townes and Charlie Olson.

How many of these do you recognize?

Thanksgiving Day — 1955

By Mrs. W. W. W.

President George Washington twice appointed a national day for giving thanks in those perilous days when our young nation was becoming established, but Thanksgiving Day on a national observance status was not recognized until President Abraham Lincoln designated the fourth Thursday in November as a national day of thanksgiving. President Lincoln did this in November of 1864, exactly 91 years ago.

Before the mechanized farming era, the simpler methods of farming did not create the great harvest now produced. Now, we are raising more than we can consume or sell and, it is well to ask ourselves. How does all this effect our feeling of thankfulness. Does Thanksgiving find us poorer in spirit amidst all of our abundance?

In religious institutions the observance of Thanksgiving is as old as old. The religious minded Pilgrims set aside a day, each year, to give thanks for the harvest. For ages the Hebrews celebrated the Feast of Ingathering for seven days, and in ancient Europe, when the harvest was all in, the people praised God with gifts and thanks. In England a festival called "Harvest Home in England" was observed every Autumn.

In each of the eras of history, the thought and prayer in each worshipful persons heart was, and is expressed in these lines:

"In the time of prosperity fill our hearts with thankfulness, and in the day of trouble, suffer not our trust in Thee to fail."

The Spirit of Thanksgiving is the same today as it was a hundred years ago, so, let us as our grandfathers did pause to give thanks for our many blessings; for the prosperity of our country and the love and security of our homes.

Christmas Seals In All Homes

Last week over 3,000 Christmas Seals letters were placed in the mail. Persons who did not receive the seals are asked to contact Miss Mary Ella Collins, Chairman. Every request will be filled promptly. Efforts were made to send Christmas Seals to all homes, but in the rush of compiling lists it is possible that some were overlooked. Some persons have received more than one letter and we appreciate the fact that they have returned the duplicate letters so that we may correct our mailing lists.

Rice's Flower Shop has donated display space to the campaign. Mrs. Rice is a Pilot and she will be glad to have you come by and see the window display.

Lola Moore, Carrie Hoover Dotson and Willie Mae Lathan Taylor, leaders of our Negro community are working with other groups to help promote the Christmas Stamp sale. If you would like to purchase stamps contact one of them and help them, make their part of the campaign a success.

Use your Seals on all holiday mail Every tiny seal is a blow against TB. This is one drive in which we believe everybody wants to help.

—T. B. Association.

Flight number sixty had picked up its lone passenger, circled the field and leveled off toward the west and two elderly people stood leaning against the wire fence gazing intently at the pigeon size speck in the sky. "She's sitting by the 2nd window on the right side" said the man. "Yes, I saw her wave" replied the woman. "Until 1957 is a long time isn't it?" "Yes, its a long time when you are already old. Two years means two spring times, two summers, two autumns and longest of all two long winters.'. -- -. "Well, we'll just have to take one day at a time and one night at a time and arrange our pattern of living without her. Something like starting all over again" - -- -- "Oh well, we ought to be thankful we were privileged to have her with us a whole week and she did have such a wonderfully good time with just the three of us like we used to when she was growing up" . . . .

"Yeah I know that, but think of the hundreds of parents who have all their kids living in the same town with them Can visit them every day if they choose and share in all their ups and downs, and heck, we have only one and she chooses to move to the water's edge of the Pacific Ocean to build her own family's nest, and it just isn't fair that we are able to see them only every two years. Two years means two springs . . . " "You have already said that" . . . "Yes, so I have . . . we better start for home now."

In the above paragraph, Fed and Ada Robinson are quoted. They have just said goodby to daughter Gerry Robinson Parker, who spent a whole week with us recently. Her husband was extremely considerate to spend his week off in keeping the little girls and Gerry hopped a plane in San Francisco at 11:30 one night and we met her in Little Rock at 8:30 next morning. We had a very happy week together, one that will be remembered . . . well, until 1957 at least when they plan on visiting "back East" again with the whole family. Best wishes to you, Parkers.

The following paragraph was written by Gerry Parker especially for this column for Thanksgiving Day.

"Thanksgiving season coming on, it seems particularly appropriate to review what I've got to be thankful for. Our two girls, ages 8 and 12 are the center of our lives. They are well and happy, have active little minds. We think of the many parents who have children who are not well in body or mind. I have a friend whose kids are the same age as ours, but their Marine flyer Daddy will never know how sweet they are because he was lost in the war. Our new home sits on a lovely hill in San Anselmo, California with a rare view of San Francisco Bay and the ships from all ports of the world, and we are thankful for it the more, when we remember some of the hotels we lived in during the war as I tried to move from place to place with my Navy flyer husband. I am thankful too for a good home life while growing up with adoring parents who tried to give me my every wish. My neighbor once told me that she grew up in an orphanage and the lack of affection and the feeling of belonging had always been an empty space in her life. I remember a little plaque hanging in my daddy's office which read: "I complained I had no shoes until I met a man who had no feet". (I sent it to him from San Antonio many years ago). And seeing it again today I thought not only do I have shoes, but feet to put in them and knees to fall down on to offer thanks to the One from whom all blessings flow. So, I am conscious of so many blessings, I would like to send greetings of goodwill to all the readers of daddy's little column, many of whom I personally know and love back in Grenada, Mississippi. May happiness and good fortune be yours all the days of your life.

Gerry Parker." —Fed

We are indebted to and thank Dr. S. B. Caruthers for a copy of "The Technique", Atlanta, Ga., (Georgia Tech) newspaper in which the following appeared:

"On November 17, 1911, a small group of Tech students, with the help of the English professor and the secretary of Tech "Y", succeeded in printing the first issue of a new campus weekly, "The Technique". Here is the paper's first staff:

Editor in Chief, E. A. Turner;

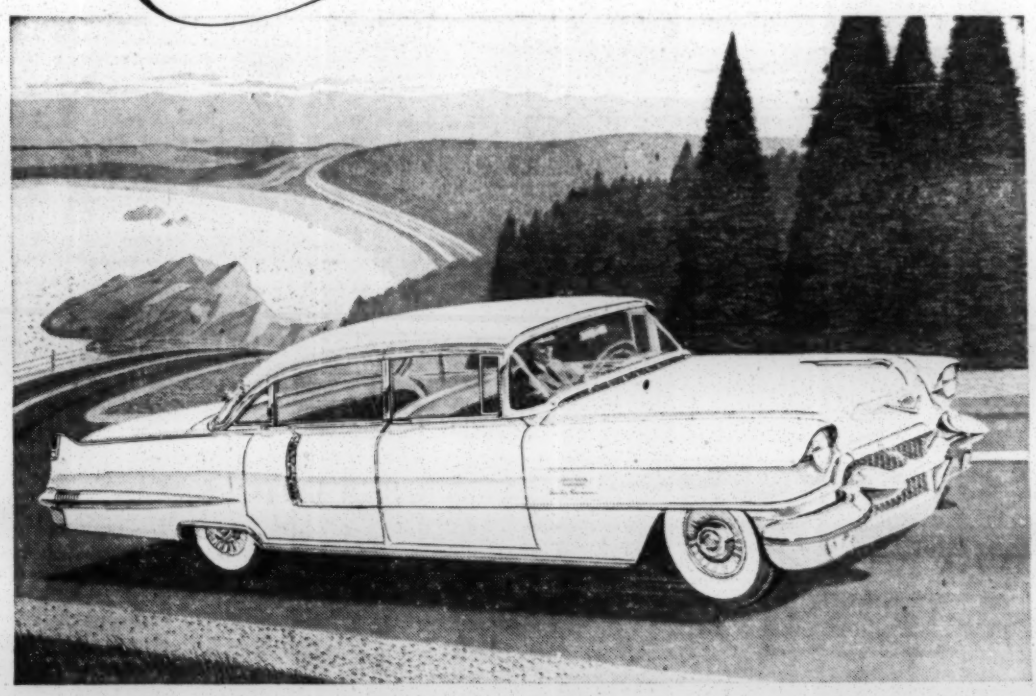
Cadillac



Half its Horsepower is for Safety!

A pretty steep hill, you'd say?

Well, not so far as this gentleman is concerned. He just gave the accelerator a little encouragement with his toe . . . and swept from bottom to top so effortlessly he was scarcely aware of it.

For he's at the wheel of a beautiful new 1956 Cadillac. And beneath that long, sleek, graceful hood rests the smoothest, most powerful engine in Cadillac history.

The fact is that this great new Cadillac engine is powerful and dynamic *far* beyond the requirements of normal usage. In the course of ordinary motoring, it is entirely possible that the driver will *never* put the accelerator down to the floor board.

But how wonderful that extra length of throttle will be if he *does* need it!

It will be there for that burst of speed that can free him from a difficult driving situation.

It will be there in case he needs it for safety in passing . . . or to answer the challenge of a mountain road.

And even when not in *active* use, that reserve of power will add to his motoring pleasure.

It will bring him confidence and contentment and peace of mind . . . and it will provide unusual operating economy and dependability.

Of course, Cadillac's magnificent performance is only part of the exciting Cadillac story for 1956. There is inspiring beauty . . . and extraordinary luxury . . . and superlative craftsmanship.

Why not stop in soon and see what we mean?

We've got the keys and the car—all you have to provide is an hour of your time.

We can promise you . . . it will be the most *revealing* sixty minutes you ever spent at the wheel of a motor car.

Duck Hill Culture Club Meets

The Duck Hill Culture Club held its regular meeting on Thursday evening November 17 at 7:30 in the home of Mrs. E. B. Wray with Miss Mary N. Wilkins, Mrs. Robert E. Raper Jr., Mrs. O. W. Scott, and Mrs. J. W. Leigh as co-hostesses. There were twenty-seven members and 15 visitors present.

Mr. B. M. Trapp, the Vocational Agriculture teacher of the Binford High School with four members of his Parliamentary Law Team were present.

The following members of the Young Women's Club were present for this occasion: Mesdames Houston Bennett, Billy Leverette, E. B. Wray, Jr., Curtis Riley, Ruth Young, Bennett Holmes, Norman Ezell, Earl Moore, Jr., Ernest Nail, J. P. Boyle, Jr., and Bill Marter.

A profusion of flowers consisting of yellow chrysanthemums were used artistically to decorate the reception rooms.

The subject of the program was Legislation which was led by Mrs. J. M. Leigh. Mr. B. M. Trapp made a very interesting and informative talk on Parliamentary Law, which was very beneficial to all of the club members. His Parliamentary Law Team composed of L. J. Brewer, chairman, Scott Brewer, Baker Pender and Bob by Leverette put on a demonstration of Parliamentary Procedure, the subject being "Attending the State F. F. A. Convention." These boys won first place in their district, which was held in Grenada November 16th.

We are always proud of the Duck Hill boys under the leadership of Mr. B. M. Trapp as they have won many honors in the State and Nation.

Refreshments consisting of chicken salad, home made cake, salted nuts, pickle and coffee were served to the guests.

The 1956 Buick SPECIAL 4-Door Riviera

This one is the news-maker that's front-page big.

This one is the new Buick SPECIAL for 1956—*the biggest bundle of high-powered energy and high-fashion luxury ever offered in Buick's lowest-priced Series.*

Just a quick listing of some certain facts will give you the picture.

First—its engine is a big new 322-cubic-inch V8 engine with an all-time high in horsepower for this Series—and an engine that hits the record book at a neat 8.9 to 1 compression ratio.

Second—its getaway—with the double-action take-off of the new Variable Pitch Dynaflow*—is spectacular even at only *part* throttle—and comes with a new boost in gas mileage to boot.

Third—on ride, this new SPECIAL is more than great—what with all-coil springing, and torque-tube stability, and a new deep-oil cushioning, and a whole new front-end geometry that adds a wonderful "sense of direction" to the car's travel.

Fourth—on room, luxury, interior finish—there's never been a Buick SPECIAL like this before. From the big, broad seats to the stunning new instrument panel—there's new decorator smartness and quality throughout.

But get the picture on price, and you have the biggest reason why this sizable automobile is so extra special a buy.

For this Buick comes to you at a figure so close to those of the most widely known smaller cars, the difference in price is small change.

So—come in and see and sample this beauty. You'll find it, we firmly believe, the biggest package of automobile at anywhere near its budget price.

**New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.*

Mrs. Margaret Goodwin Resigned

In last week's issue we published an incomplete news story about Mrs Margaret Goodwin, Grenada County Welfare Department Agent, who retired November 15th. We promised more information, so here it is.

Mrs. Goodwin is the daughter of the late Joseph Eugene and Minnie Talbert Aldridge. She received her elementary education at Grenada College and finished at Blue Mountain College. She taught school in Grenada, Winona and Cascilla.

On September 17, 1917, she and Mr. Thomas Webster Goodwin were married. They lived in Cascilla until October, 1925 when they moved to their present home at Hardy.

Mrs. Goodwin again entered public life in 1932-33, when she worked for the F. E. R. A.

In 1934 she worked for the lunch program when that service was first presented in this state, also as Home Visitor for F. S. A.

In December 1935 she worked for Old Age Program under the E. R. A. and in 1937 became Grenada County Agent for the Dept. of Public Welfare. She held this office until November 15, 1955.

Mrs. Goodwin was an efficient, courteous, fair and understanding woman and executive agent of this office She has made friends all over the county who regret that her health is so that she must now think of herself and consider the wishes of her family Mrs. Goodwin could have held the position for life, and rightly so. She is really a very splendid executive and lady.

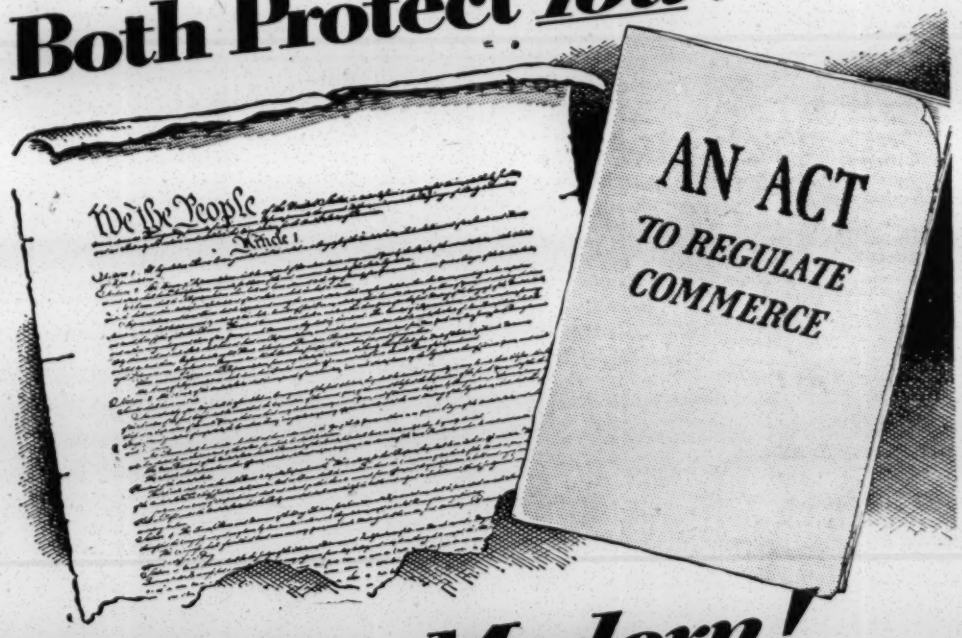
Railroads are vigorously promoting a so-called "Cabinet Committee plan" to restrict public controls over transportation rate-making—returning such power to railroad hands.

Both Protect You . . .



Both Are Modern!

Your rights and privileges as an American citizen are protected by the Constitution, a unique and magnificent document whose principles are as sound today as when written, over 150 years ago.

Through the years, amendments have been added to keep the Constitution up-to-date.

The same is true of the regulatory powers of the Interstate Commerce Commission. Congress has enacted more than 150 amendments to the Interstate Commerce Act since it was passed in 1887, completely overhauling it twice.

In principle, present ICC regulations governing the various transportation systems are pertinent, constructive, and modern in concept. Under these principles, we have developed the greatest competitive transportation system in the world!

The Good News

Lesson for November 27, 1955

THERE is no such thing as the Christian religion, except in human beings. There is no such thing as the growth of Christianity, unless it grows in people. So how does Christianity spread? Only by one way: people who are Christians must win people who are not Christians. People who know Jesus Christ must introduce other people to him. The church has a word for this: it is called Evangelism. Anybody who thinks he doesn't believe in evangelism is really saying that he doesn't care whether there are any new Christians or not. He is saying (though perhaps without realizing it) that what he calls his "faith" is not worth talking about, or recommending to any one else.

Dr. Foreman

Preaching and Bringing—

Our rather technical word "Gospel" means simply "Good News." That is what it is called in the New Testament. Not good advice, or good answers to philosophers' riddles; just good news—about God, about Jesus, about destiny. Luke gives us some interesting and valuable hints about how this Good News was broadcast in Jesus' own time and by his direction. One is in three words (Luke 8:1): Jesus came **"preaching and bringing"** the good news of the kingdom of God. The Gospel is not something just for talk. A tape-recorder can give out a sermon; but a tape-recorder cannot be a preacher of the Gospel. A minister who preaches on Sunday and disappears the rest of the week (if such there be) may be preaching the Gospel but he is not bringing it. Jesus lived by what he preached. The good news can be told by a clever tongue; but it can be brought only by a consecrated life. What would be thought of a grocery store where, if you went in, you would see only empty shelves, and a flock of clerks who would buttonhole you and tell you all about the wonderful groceries — that aren't there! And what can one think of a church where all you can find out about the love of God is just talk, and nobody brings the Gospel? The Gospel can't be brought in a little parcel you can tuck under your arm like a prayer-book. It has to be brought in a man-sized package, a live sample. After a few months you can buy a "demonstrator" car or tractor cheap; but a "demonstrator" Christian is beyond price.

Seed and Soils

You would think that if we could only get Jesus Christ in person, as he was in Galilee, into our church, we could convert everybody. Well, he didn't. No one ever brought or preached the Gospel better than he; but he did not meet with 100% success. He gave a reason for this that any farmer or gardener can understand. Preaching the Gospel is like sowing seed, he said. Sometimes when you look at two fields you may find it hard to believe that the same seed was sown in both; but so it was. The difference is in the soils. In Hutchinson, Kansas, there is a grain elevator with a capacity of ten million bushels of wheat. Every bushel in the hundreds of bins can be traced back to the area where it grew. On the wall in the testing-laboratory of that elevator there is a map of Kansas, county by county; and the kind of wheat each county is producing, this year, is marked there. The same seed wheat, in different counties or in different parts of the same county, may have different protein content or vary in number of bushels to the acre. So some people are better Gospel-soil than others.

To Preach and to Heal

When Jesus sent out his disciples to preach, he sent them to heal too. Health is the church's business. Whatever affects man's health of body, mind or soul, that is the church's affair. When she preaches and brings the Gospel, she has no right to say, "What we preach is only for your soul." The good news about God has transformed whole communities, it has changed the world for women, for children, for slaves, for downtrodden minorities. A gospel which is only for souls is not the Gospel Jesus preached and brought.

Donald Sulton Won Trip To "Round Up"

(By Ray McGee, Ass't County Agt.)

Donald Sulton, a member of the 4-H Club at Gore Springs, has been selected as district winner in corn production for the Northwest District of Mississippi.

Donald was not chosen for his high yield alone but for his records that he sent in to Mississippi State College.

Donald has done a good job with his project work and also with club activities for several years. This year Donald has several projects which includes corn, cotton, swine, and beef cattle.

Billy Phillips, a member of the Grenada High Club and is now a freshman at Mississippi State College, has been selected as county winner in electricity.

Billy has also done some outstanding work with many projects also showing livestock. Some of these projects includes beef cattle, pastures, electricity, cotton, corn, forestry, and tractor maintenance.

Billy was not selected for the good work done in electricity alone but for the records that he sent in to Miss. State College.

The trip won by Donald and Billy to Round-Up will be an all expense paid trip which will include many interesting activities. Tours will be made of the Capitol building, Governors Mansion, Farmers Central Market, and other points of interest.

I. Ray McGee, Assistant County Agent of Grenada County, want to congratulate you, Donald and Billy, for your winning this educational trip to 4-H Club Round-Up in Jackson.

Are "Dog Days" the Only Time You Can Get Hydrophobia?

Hydrophobia, or rabies, exists in dogs the year around. However, rabid dog bites occur most often in the summer, when more people are out of doors.

Any person bitten should receive Pasteur treatment as quickly as possible if the biting animal is known to be rabid or if it cannot be confined, observed, or examined. Your doctor is prepared to give you this indispensable protection. We stock fresh vaccines and many other emergency items in order to serve your vital needs promptly.
